

B.Sc.(ECS)-II

Practical Assignment-2

1. Write a python program which writes byte stream into a file after serialize the dictionary object into byte stream by using pickle module .
2. Write a python program which reads byte stream from file and deserialize that byte stream into dictionary object by using pickle module .
3. Write a python which only converts object into byte stream by using pickle module.
4. Write a python program to convert dict object into json string.
5. Write a python program to write dict object to json file after Serialization by using JSON module.
6. Write a python program to read json file and covert it into dict object by using JSON module.
7. Write a python program to create a CSV file and write following records into that file.

A	B
Sr. No.	Place
1	Sangola
2	Solapur
3	Pune

8. Write a python program to read above CSV file and display all records on screen.
9. Write a program to write a dictionary into a CSV file.
10. Write a python program to create an excel spreadsheet and write below data into that sheet.

Roll No.	Name
1	A
2	B
3	C

11. Write a python program to read and display above excel on the screen.
12. Write a program to replace the name C as D
13. Write python program to insert two rows above Roll No. 3.
14. Write python program to delete previously inserted rows.
15. Write python program to freeze columns of spreadsheet created by question no. 10

16. Write python program to apply filter and filter out roll no. 2 in sheet created by question no. 10

17 Write python program to perform font formatting on name A in sheet created by question no. 10

18. Write python program to add any image in excel spreadsheet.

19. Write a program to create following spread sheet

Year	admitted students
2022	700
2023	720
2024	735
2025	840

20) Write a program to create bar chart using above spreadsheet in que. no.19

21) Write a program to create line chart using above spreadsheet in que. no.19

22) Write a program to create pie chart using above spreadsheet in que. no.19

23) Write a program to demonstrate conditional formatting on spreadsheet.

24) Write a program to align text to the center on spreadsheet created in que. No.10.

25) Write a program to create a new sheet in workbook as well as delete that sheet.
